

Jumbo Slot Sampler

Large volume Slot Sampling

Designed for large volume sampling of several points. To keep the weight down this sampler is constructed from aluminium.

- Type: Multilevel (discrete samples)
- Material: Aluminium construction - stainless steel tip
- Operation:
1. Insert the sampler into the product
 2. At the required depth rotate handle to expose the collecting pockets, the product will fall into the collecting pockets
 3. Rotate handle to close pockets and remove sampler.

Part No.	Sampler Length	Diameter	No. of Sampling Windows	Material of Construction
1210J-900	900mm	50mm	3	Aluminium
1210J-1500	1500mm	50mm	5	Aluminium
1210J-2500	2500mm	50mm	7	Aluminium
Ancillaries	Cleaning brushes	See page 78 for full range		
	Storage Cases	See page 79 for full range
