

Slot Sampler

Heavy Duty Multilevel Sampler

The Slot Sampler is ideal for taking a large volume, cross sectional sample from a container. The sampler has a robust all stainless steel construction and is suitable for sampling free flowing powders, granules and even slightly cohesive powders

- Type: Cross section (composite sample)
- Material: 316 stainless steel, bright finish
- General: Suitable for taking large volume samples.
- Operation:
1. Insert the sampler into the product
 2. Turn the handle to open the slot - the product can now be collected in the central tube
 3. Turn the handle to close the slot
 4. Remove the sampler
 5. Invert the sampler to discharge the sample

Standard Slot Sampler (without Bottle Holder)

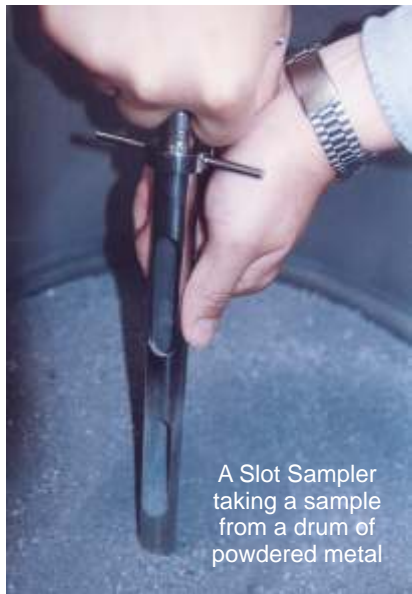

Sample being
discharged

Bottle Holder

The Slot Sampler is available with a bottle holder. This enables the sample to be emptied directly into a bottle.

- Improved Containment
- Save time
- Can be used with either a 250ml or 500ml bottle
